

...ing in exemption from tests and quarantine measures for vaccinated passengers and will help bring normalcy in flying," said a senior government official who did not want to be identified. This matter will be part of the consultations that the aviation ministry will have with the home ministry on resuming international flights.

The home ministry, in its guidelines on easing Covid-19 restrictions issued Wednesday, said for further opening up of international air travel of passengers, the civil aviation ministry would take a decision in consultation with the home ministry.

However, India's resumption of international flights would also depend on how other countries respond and demand

vaccinated people

for travel, the officials said. "Restart of regular international flights will depend a lot on the response from other countries but we have flight bubbles with so many countries, which could be looked at initially," said a senior government official on condition of anonymity.

India's CEO Ronojoy Dutta said on an earnings call on Thursday that short-haul international flights may start during the

ments with 23 countries including the US and the UK. Bubble agreements are temporary arrangements between two countries aimed at restarting commercial passenger services when regular international flights are suspended and are reciprocal in nature.

With countries including India starting their vaccination drives, the International Air Transport Association too is in favour of resuming cross-border flights and removing travel restrictions for vaccinated individuals.
